

Books Published By President, XIME

Prof. J. Philip

Global Management Education- Country Studies, Prof. J. Philip and Prof. C.P Ravindranathan , 2009, Published by Xavier Institute Of Management & Entrepreneurship, Bangalore.

This book is a compendium of selected papers on management education world-wide and was formally released by Prof S.L Rao, Chairman ISEC and former Director-General of NCAER. The book, probably the first of its kind, focuses on management education –its genesis, growth and prospects -in the U.S., Europe, Brazil, China, Russia, select Asian countries etc, and the impact on the internationalization of management education. Those interested in management education will find the book extremely valuable.

Business Education in India-A Ringside View , Prof. J. Philip , 2009, Published by Xavier Institute Of Management & Entrepreneurship, Bangalore.

This book is a compendium of some of the articles/papers of Prof. J. Philip on management education written/published during the last two decades. What he puts together in this compendium is his intimate association with, and experience and knowledge of, Indian Management system where he has been both a player and a perennial source of influence. The book starts with a survey of the management schools system in India and then delves through every major aspect of management education including the curriculum, teaching methodology, quality assurance, quest for excellence, leadership and restructuring of Indian management education. The book ends with a critical review of the Knowledge Commission Report on management education.

Institution Building in India-Some Experiences, Prof. J. Philip , 2007, Published by Himalaya Publishing House ,Mumbai

This book we can come across the experiences of the innovative, determined and visionary academician who had the opportunity and the blessing to be President & Director Emeritus, XIME, Prof. J. Philip . The experiences chronicled here thus run the gamut from a Cheshire Home to one of the top IIMs of the country, to XLRI to XIME and striking the high point with the building of the Association of Indian Management Schools (AIMS) the umbrella organization for the business schools of the country.

Management Education in India, Prof. J. Philip and Dr. D. Shankar Narayan,1989,Published by IIM-Bangalore.

This publication, Management Education in India edited by Prof J. Philip and D. Shankar Narayan is the outcome of the deliberations of the National Conference on Policy implications in Management Education organized by the Indian Institute of Management, Bangalore in April 1988. This book would be of great value as a source book to everyone in management academia, industry and government who are striving together for a more effective management education system in the country.
