About XIME:

XIME was founded in 1991 by a visionary group of leaders, illustrious academicians, professionals and public-spirited men and women, led by Prof. J. Philip, former Director of IIM Bangalore and former Dean of XLRI Jamshedpur. Built on the foundation of Industry-Academia partnership, XIME is embedded on the principles of integrity, hard work, value-based education and holistic development of students to ensure highest standards of professional excellence.

The first campus of XIME was established in Bangalore over 25 years ago. The present campus of XIME Bangalore has 1.65 lakh sq ft built-up area in Electronics City, Bangalore, the Silicon Valley of India. The second campus was established at Kochi in 2013 with a built-up area of 1.1 lakh sq ft. The third campus of XIME has come up in Chennai with a built-up area of 90000 sq ft and is located at Oragadam, the automotive hub of Tamil Nadu, on the Vandalur-Walajabad Highway, adjacent to the Royal Enfield Factory. The Chennai campus admitted its first batch of PGDM students on June 25th, 2017.

XIME has found the 50th place in the NIRF ranking of B-Schools' published by MHRD, Govt of India on 3rd April 2017. Recently, XIME Bangalore's PGDM Programme has got NBA accreditation.

About the Workshop:

The fast changes in the securities markets make it a challenging task to learn and remain updated on the latest concepts and practices. XIME Bangalore is pleased to launch a 2-day workshop on 'Trading in a Stock Exchange' which packs in practical knowledge, skills and a host of applications in the field of securities markets, to help make you a successful investor/Trader. The program is designed to impart concepts, skills and the ability to apply them to various situations in the securities markets.

Objectives of the workshop:

On successful completion of the program the candidate will:

- Know the basics of the Indian Securities Market, key concepts, and terminologies
- Know the products, process, and functionality related to Securities Markets
- Understand the Clearing, Settlement and Risk Management as well as the Operational Mechanism related to Equity/Derivatives Markets
- Understand the various Trading Strategies that can be built using Futures and Options on both Stocks and Stock Indices
- Gain Technical and Managerial Skills
- Practical Training on Real Time Markets

Pedagogy:

The programme requires you to be an active learner. The learning process involves interactive lecture sessions by leading professionals in their respective fields (Stockbrokers, Certified Trainers) through presentations, exposure through LIVE trading sessions.

For whom:

This course is for all those who are curious to know about stock market/exchanges.

- Post-Graduate Students
- Research scholars/ Ph.D. Students
- Faculty at Universities
