

TALK SHOW SERIES – FIRST EPISODE

7th July 2022

The Inauguration of the TALK SHOW series by EMPRESARIO, Entrepreneurship Club OF XIME, Bangalore kicked off in style. The club has always strived to inspire the students' community inside the campus with practical activities having different taste and flavour . We could not think of anything better at this stage than having a one on one online conversation with one of the most trending faces of the Indian entrepreneurial community, Mr. Anubhav Dubey, Founder, Chai Sutta Bar .For the first time ever, all the three entrepreneurial wings of XIME Bangalore , Kochi and Chennai joined together to make this event a grand success.

The Club's first initiative to do something off-track by hosting an interactive rather than a conventional speaker session was a real hit as we witnessed around 100 footfalls that too in a weekday, where most of the second-year students were busy with their summer internships. The session started sharp at 9:45 AM with a brief introduction of Mr. Anubhav Dubey by Miss Kathryn Hanna after which the host of the session Miss Vanessa Sagarika Alphonse (Vice President, EMRESARIO) took charge of the Q&A round.

The active participation of students and faculties from all the three campuses during the Q & A session made the interactive session very lively. Mr. Dubey also shared his experience on his own entrepreneurship journey ; how a bootstrapped company with meagre resources in the initial struggleful days is going global with positive responses from all outlets including the foreign ones. Chai Sutta Bar's specialty to serve tea in small clay pots gels so well with their

innovative underlying message “Kiss the soil of your motherland while sipping tea in our clay cups “. The session ended with a happy note from Ankit Karmakar , President , EMPRESARIO when his impromptu invite to Mr Anubhav Dubey to XIME campus for a physical interaction with the students was gladly accepted by Mr Dubey.
