AWS Cloud Quest – Role Play Simulation
(PGDM-BA 02 – AY 2023 – 24)

AWS Cloud Quest is the only 3D role-playing game to help you build practical AWS Cloud skills. Choose your role—Cloud Practitioner, Serverless Developer, Solutions Architect, Machine Learning Specialist, Security Specialist, Data Analytics Specialist, or Networking Specialist—then learn and apply cloud skills to help the citizens of your virtual city. Once you finish all the assignments in your role, showcase your achievement with a digital badge.

FREE

Cloud Practitioner

Develop a fundamental understanding of cloud concepts and start building solutions. Get hands-on experience with compute, networking, database, and security services.

The students after completing the role play will be able to

- Immerse themselves and their teams in training with solution building tasks specific to job and business needs.
- Build solutions in a live AWS environment — first with step-by-step guidance, then experiment on your own.

- Motivate Team Learning by Creating customized learning paths to onboard new employees and deepen cloud skills; gain insights as teams learn together.
- Collaborate and compete by accelerating skills development by hosting AWS Cloud Quest Tournaments, where players develop practical cloud skills while competing in a virtual match.
